SUMMARY

Final-year engineering undergraduate with foundational knowledge in Internet of Things and Data Analytics. Seeking an internship as an IoT Developer and Data Analyst to apply hardware skills, strengthen data-analytical capabilities, and leverage insights for data-driven decision-making, enabling impactful projects that enhance user experience and operational efficiency.

EDUCATION

B. Tech, Computer Science & System Engineering CGPA: 8.44 (as of Semester 5)
Kalinga Institute of Industrial Technology, Bhubaneshwar — Jul 23–present

Senior Secondary (XII) Percentage: 83.80%
Delhi Public School, Ruby Park, Kolkata — 2021-23

Secondary (X) Percentage: 93.40%
Garden High School, Kolkata — 2010-21

SKILLS

- **IoT Systems:** Arduino, Robotics, ESP32, MQ Gas Sensors, ThingSpeak, Ultrasonic, Luxonis Oak-D cameras, DepthAI, OpenCV, YOLO, NumPy, Matplotlib, Real-time Data Acquisition, Firmware Development, Serial Communication, Stereo Vision, Depth Estimation, Spatial AI, Camera Calibration, Pose Estimation, ArUco Pose, 3D Localization, MQTT, Sensor Fusion, Embedded C, AWS IoT Core, Cloud Integration, Oracle Cloud Infrastructure (OCI)
- **Data Analysis & Visualization:** Advanced Excel, Power BI, Data Visualization, Dashboarding
- **Database Management:** MySQL, PL/SQL, SQL Queries
- **Programming Languages:** C, Java, Python, VHDL, ARM Assembly Language
- **Tools & Software:** MS Office, AutoCAD, Cain and Abel, Nmap, Metasploit, Linux, Vivado, VS Code, Wireshark, Keil 4µVision
- **Non-Technical Skills:** Effective Communication, Problem-Solving, Teamwork, Lean Six Sigma, Karate Green Belt(5th Kyu), Time Management, Critical Thinking, General Aptitude, Drama, Sound Design, Event Management

EXPERIENCE & PROJECTS

- **ArUco-Vision:** Made a visual-aid for home objects using ArUco markers with voice callouts with 70% precision.
- **Wealth-Wise:** Built a personalized Savings advisor app with integrated IT Laws on income and invested assets.
- **Binary-clock screensaver:** Designed a screensaver for Windows that shows system time in binary digits.

IoT Intern, Jadavpur University, Kolkata — 21/05/2025 – 07/07/2025

- **DepthAI Spatial Locator:** Coded the distance calculation program using stereo-camera libraries with 95% accuracy.

Team Member, IoT-Lab-KIIT — 07/2024 – Present

- **Air Quality Index:** Developed and implemented Arduino code for MQ sensors to monitor air quality and successfully transmitted real-time sensor data to a ThingSpeak channel for visualization and analysis.
- **Sensor-based Simulated Bomb:** Assisted in the hardware design of a sensor-based simulated bomb, integrating multiple sensors as per requirement.

CERTIFICATIONS

- 2-Days Workshop on Ethical Hacking, IIT Bhubaneshwar
- Activation Workshop, 1M1B, AICTE, Salesforce
- Getting Started with AWS IoT, Amazon Web Services
- AI Masterclass, FREEDOM WITH AI
- IoT Internship Certificate, Jadavpur University
- Lean Six Sigma Yellow Belt, C.S.S.C and Sparen and Gewinn Consulting
- Forensic Science Webinar, ADAMAS UNIVERSITY
- Oracle Cloud Infrastructure 2025 Data Science Professional, Oracle
- Oracle Cloud Infrastructure 2025 Generative AI Professional, Oracle
- AI for Youth Bootcamp, Intel Digital Readiness
- Oracle Cloud Infrastructure 2025 AI Foundations Associate, Oracle
- AI-Driven Project Management, UPBUILD academy
- Securely Connecting IoT Devices to Cloud, AWS
- Oracle Data Platform 2025 Foundations Associate, Oracle
- Handling AWS IoT Device Data and States, AWS
